Purple Giraffe × AUSTRALIAN women in wine

WEBSITE PROPOSAL

A website built to grow Australian Women in Wine.

A custom-designed website for AWIW, planned by marketers and built by our in-house team to be found on Google and in AI search.

Nine pages on WordPress, with your existing copy placed and formatted, one permanent home for the National Symposium, and redirects so the years of history on your current website keep working. Launch in approximately 3 weeks of build time, once the proposal is signed and final copy and images are approved.

PREPARED BY	DATE	VALID UNTIL
Purple Giraffe	3 November 2026	3 December 2026

Thank you

Thank you for the opportunity to provide this proposal for a new Australian Women in Wine website.

The following pages contain information on who we are, how we'll build your website and our interpretation of our discussion of your needs.

We have provided some options for your consideration. Our goal is to support your organisation as if we are your internal marketing team, we simply don't sit in your office. "When you win, we win."

Lynda Schenk

Lynda Schenk

Head Giraffe, Purple Giraffe

OBJECTIVE

What the new website will give AWIW

01

Built for the people you need to reach

Clear routes from the home page for event-goers, members, volunteers, partners and media.

02

A design as considered as your brand

A custom design for AWIW, from a moodboard and two homepage concepts, with two design review rounds.

03

Works on every device

Designed mobile first and tested on real phones, tablets and desktops before launch.

04

Easy for your team to update

Built on WordPress, with recorded training videos your team can watch whenever they need them.

05

A Symposium page that works every year

One permanent page for the National Symposium: tickets and program before the event, highlights and partner thanks after it.

06

Accessible and secure

Built to WCAG 2.2 AA accessibility, with security updates, backups and monitoring on the care plan.

WHY OUR WEBSITES ARE DIFFERENT

A website built with a marketing lens

BUILT BY MARKETERS

A marketing asset, not just a build

Most websites are built by developers to a brief. Ours are planned and built by a team of marketing consultants, so your website works as a marketing asset from day one.

- Planned around your audiences and the actions you want them to take
- Clear routes for event-goers, members, partners and media
- Set up to support your newsletter, events and partner programs

BUILT BY AI AND DIGITAL SPECIALISTS

Found on Google and in AI search

Our AI and digital team sets the website up for search from the start, including the AI tools more people now use to find organisations like AWIW.

- Page structure, meta titles and descriptions, and schema for SEO
- Clear, well-structured answers for GEO and AEO
- Optimised for performance: fast load times, mobile first, images compressed
- Tracking from launch with GA4, Tag Manager and Search Console

SEO

SEARCH ENGINE OPTIMISATION

Helping you rank in Google and Bing.

GEO

GENERATIVE ENGINE OPTIMISATION

Helping ChatGPT, Perplexity and Google AI Overviews understand, reference and recommend you.

AEO

ANSWER ENGINE OPTIMISATION

Structuring content to directly answer the questions members, partners and media ask.

OUR RECOMMENDATION

Growth website, Custom design, with Care

RECOMMENDED FOR AWIW

Growth

9 pages · WordPress · Custom design

Approximately 3 weeks of build time, once the proposal is signed and final copy and images are approved

WHY THIS FITS AWIW

01

Growth fits the new structure

Seven menu pages, a privacy policy and a news article template sit inside Growth's 6 to 10 pages, with SEO and AI visibility set up and redirects from your current website included.

02

Custom, for a site as considered as the brand

A moodboard, two homepage concepts and a design system built around AWIW, with two design review rounds before we build.

03

Care keeps it current, without extra work

Plugin, theme and security updates, a monthly report and up to 45 minutes of small changes each month.

YOUR NEW WEBSITE

Nine pages, one clear structure

The new site keeps the structure the team already knows. Join Now becomes Get involved, a real Contact page is added, and a privacy policy sits in the footer. Every news post and media release uses one article template.

01 Rebuild

Home

/

- What AWIW is, in one clear line
- What's on next
- Four routes: attend, get involved, partner, read the research

02 Rebuild

About

/about/

- Your story and what AWIW does
- The board, with Person schema
- Awards honour roll, 2015 to 2020

03 Rebuild

National Symposium

/symposium/

- One permanent address, used every year
- Tickets and program before the event
- Highlights, photos and partner thanks after it
- Event schema built in, past years archived

04 Rebuild

/contact/

- Real email and enquiry form by topic
- Media contact
- Linked social profiles

09 New

Privacy policy

/privacy/ (linked in the footer)

- What's collected and why
- Linked from every form

Your copy

AWIW supplies the copy for each page, based on your existing website. We place it into the new design, format it for the web with headings, links and meta titles and descriptions, and flag anything that needs your attention.

If you would like us to review and update the copy for SEO, GEO and AEO, we have included this as an optional item in the investment.

HOW WE'LL BUILD IT

Four stages, approximately three weeks

Timing starts once we have signed agreement to proceed, final approved copy and images. Purple Giraffe will provide updates across the stages identified below. The timeline pauses while we wait on AWIW's feedback or approvals.

STAGE 1 — About 3 days of build time

Discovery and setup

- Kickoff call with your team to confirm goals, audiences, pages and timing around the 2027 Symposium
- Access to your hosting provider, domain and current website
- A staging site set up and hidden from search engines
- Final sitemap and redirect map agreed

From AWIW: Access details, your copy, images and brand assets, and one contact for feedback.

Invoiced when the proposal is signed: 25% of the build

$875 on the $3,500 package

STAGE 2 — About 1 week of build time

Design

- Moodboard and two homepage concepts
- Design system and page templates for every page type
- Two design review rounds before we build

From AWIW: Feedback within 2 business days per review round.

Invoiced on completion: 25% of the build — $875 on the $3,500 package

STAGE 3 — About 1 week of build time

Build and content

- Nine pages built on WordPress from the approved design, including the news article template
- Your copy placed and formatted, with meta titles and descriptions
- Schema, forms and tracking set up
- One round of feedback on the working website

From AWIW: Review of the working website. Optional: our SEO, GEO and AEO copy review.

Invoiced on completion: 35% of the build — $1,225 on the $3,500 package

STAGE 4 — About 3 days of build time

Launch and training

- Redirects switched on and tested
- Speed, image and mobile optimisation
- Real-device testing and go-live, then checks within 48 hours
- Recorded training videos and 30 days of fixes

From AWIW: Sign-off to go live.

Invoiced on completion: 15% of the build — $525 on the $3,500 package

See the full scope, phase by phase

Strategy phase

- Planning around AWIW's objectives, so the website works visually and in its content
- User pathways and a sitemap that set the page structure, layout and flow of content
- A dedicated project contact for the whole project

Design phase

- Home page and internal page templates, based on the agreed sitemap
- Designed to work on phone, tablet and computer
- Your current branding applied throughout
- Quick links to your main areas: attend, get involved, partner and research
- Your own photography, or licensed stock at cost if needed

Development phase

- WordPress, so your team can update pages, news and events through a simple login
- On-page SEO: page titles, meta descriptions, headings and schema
- GEO and AEO: clear answers and structured content AI tools can understand
- Google Analytics 4, Tag Manager and Search Console
- Enquiry forms emailed to you and stored as a safeguard
- Newsletter sign-up connected to your mailing platform
- Social links, click to call on mobile, and accessibility to WCAG 2.2 AA

Deployment phase

- Your copy placed on all nine pages
- Built on a staging site and moved live on your approval
- Tested on current Chrome, Safari, Edge and Firefox
- Permanent redirects from your current addresses
- Recorded training videos for your team, and 30 days of fixes

WHY PURPLE GIRAFFE

A website with a marketing team behind it

Purple Giraffe was founded in 2014 when marketing expert Lynda Schenk saw the growing need for outsourced marketing consultants. Now with offices in South Australia, Western Australia and Queensland, Purple Giraffe offers end-to-end outsourced marketing consulting services to our clients. We're strategically driven, and we adapt our offering to suit each client's needs, with their specific target market in mind.

The Purple Giraffe team.

Your project team

Suba Thiyagarajah

AI and Digital Solutions Consultant

Suba brings over eight years of experience across digital project management, operations and AI. He has built and scaled delivery teams across the UK, Sri Lanka and Australia, with depth in the health and medical sector. At Purple Giraffe, Suba leads the way on AI and digital solutions for both the team and our clients, turning complex challenges into simple, practical solutions, whether that is implementing AI, delivering website projects or improving systems.

Chloé James

Marketing Consultant

Chloé is a communications professional with over 20 years' experience working in media, public relations, marketing, events, internal and external communications, corporate affairs, and leadership. A former Sky News Business Anchor, Chloé has lived and worked all over the world and has interviewed some of the world's most successful business people. Her passion for brand building and story-telling is a true asset to the businesses she works with.

What our clients say

"They do everything to a very high quality. They get things done."

RIVERLAND WINE

"I would thoroughly recommend Purple Giraffe. Their staff is experienced and they understand our brand."

PG CLIENT

"The return on investment that you will get with them is absolutely brilliant."

PROTECTING WHAT'S EARNED

Nothing gets lost in the move

Years of award winners, media releases and links from partner websites sit on your current website's addresses. Every address either moves to its new home with a permanent redirect or is retired on purpose. It's the least glamorous part of the project, and we put the most care into it.

REDIRECT MAP · PREVIEW	301
news + resources posts	kept · same URL
past Symposium pages	→ /symposium/
Join Now	→ /get-involved/
old pages with a new home	→ mapped
pages no longer needed	410 · retired on purpose

YOUR INVESTMENT

Build your estimate

Your package is set. Add anything else you'd like, and the totals and payment schedule update live.

01 Package

FIRST-CLIENT PRICE

Growth website, custom design

9 pages · WordPress · approximately 3 weeks of build time

Regular price ~~$6,250~~

$3,500

one-off, ex gst

AWIW is the first client on our new, enhanced in-house website development capability, so we are offering this build at $3,500 instead of $6,250.

02 Hosting · optional

Happy with your current hosting provider? Keep it, and we build on it with access from you. Or we can host the website for you.

Keep your current hosting

$0 no change

We build on your existing hosting provider. You keep paying them directly, and we need access to the account.

Selected ✓

Purple Giraffe hosting

$89 /mth, ex GST

Fast, managed hosting looked after by us, so there is one less provider to deal with.

What's included

- ✓ Managed WordPress hosting in a Sydney data centre
- ✓ SSL certificate
- ✓ Server backups and uptime monitoring
- ✓ Domain and DNS management, with your email records protected

03 Care plan · optional, monthly, ex GST

Keeps your new website updated, secure and backed up after launch, on your hosting or ours. Month-to-month with 30 days' notice.

No care plan

$0 no change

You or your current provider look after updates and backups.

Selected ✓

Care

RECOMMENDED

$229 /mth, ex GST

Keeps WordPress updated, secure and backed up, with a small change each month.

What's included

- ✓ Plugin, theme and WordPress updates
- ✓ Security updates, backups and monitoring
- ✓ Monthly website report
- ✓ Up to 45 minutes of small changes each month

Care Plus

$499 /mth, ex GST

Everything in Care, with more change time and regular search checks.

What's included

- ✓ Everything in Care
- ✓ Up to 2 hours of changes each month
- ✓ Quarterly SEO and AI visibility check

04 Ongoing support · optional, monthly, ex GST

A set number of hours each month for SEO, GEO and AEO content, conversion testing and reporting, so the website keeps bringing in members, partners and attendees. Month-to-month with 30 days' notice.

No ongoing support

$0 no change

Ask us for one-off changes when you need them.

Selected ✓

Ongoing Support

$769 /mth, ex GST

A steady start: fresh, search-friendly content every month.

What's included

- Up to 4 hours of work each month
- For example, one new optimised article or two page updates
- SEO, GEO and AEO improvements
- Monthly report

Ongoing Support Plus

$1,429 /mth, ex GST

More momentum, with testing to turn visits into sign-ups.

What's included

- Up to 8 hours of work each month
- For example, two optimised articles or a new landing page
- One conversion test a month
- SEO, GEO and AEO improvements
- Monthly report

One-off changes instead: $185 per hour ex GST (1 hour minimum), or $930 ex GST for a 5-hour block used within 3 months.

05 Extras · optional, one-off, ex GST

Only if you need them. Open any item to see what it is and when it helps.

Copy review for SEO, GEO and AEO RECOMMENDED

$185 per hour, ex GST

What is this?

We review your existing copy so search engines and AI tools can understand and quote it: clear headings, the questions people ask answered directly, keywords and internal links.

When it helps AWIW: Your current copy is being reused on the new website. A review helps pages like the Symposium, membership and resources show up in Google and AI answers. We confirm the hours with you before starting.

Extra page (written, designed and built)

$370 per page, ex GST

What is this?

A new page beyond the nine in your package, built on one of your approved page templates. We write the copy (about an hour including review and your approval) and build and check the page (about an hour). A page that needs its own new layout also needs a custom template.

When it helps AWIW: If you need a page that is not in the sitemap, for example a dedicated awards or partners page, and you do not have copy for it.

Extra page (you supply the copy)

$190 per page, ex GST

What is this?

A new page beyond the nine in your package, using copy you supply, built on one of your approved page templates.

When it helps AWIW: The same as an extra page, when your team already has the words.

Extra review round

$370 per round, ex GST

What is this?

One more round of feedback and changes, on top of the two design rounds and one website round included.

When it helps AWIW: Useful if several board members need to review and sign off, and feedback comes in stages.

Custom design for one extra page template

$560 per template, ex GST

What is this?

A new custom-designed page layout, on top of the page templates included in your package.

When it helps AWIW: If a page needs its own look, for example a distinct layout for each year's Symposium.

Paid ads landing page

$740 per page, ex GST

What is this?

A landing page built for a paid ad campaign, with its own form and tracking. It sits on your new website as its own page (for example, a Symposium tickets page), so there is no extra hosting or domain to buy. Ad spend is separate and paid by you.

When it helps AWIW: If you run Google or Meta ads, for example to sell Symposium tickets or recruit members, a focused page usually converts better than a general one.

Custom WordPress feature (typical small)

$1,480 per feature, ex GST

What is this?

Custom WordPress functionality beyond what standard plugins do. Priced for a typical small feature; larger features are quoted first.

When it helps AWIW: For example, a searchable member or mentor directory, or a custom event listing.

YOUR SELECTION

● LIVE

Growth, Custom — $3,500

Build time · approximately 3 weeks, after sign-off

ONE-OFF · EX GST

At go-live · 15%
$525

All prices are in Australian dollars and exclude GST unless shown otherwise. Third-party running costs (like domains and premium plugins) are paid directly by you. To start, we'll need access to your hosting account or hosting provider.

HOW WE WORK TOGETHER

Clear terms. No surprises.

Review rounds

Two design review rounds, plus one round on the working site. Extra rounds are $370 (ex gst) each.

Feedback

One person on your side consolidates feedback and returns it within 2 business days per round. Delays move the timeline, not the price.

Timeline

Approximately 3 weeks of build time, starting once the proposal is signed and final copy and images are approved. The timeline pauses while we wait on feedback or approvals.

Defects and changes

A defect is something that doesn't work or doesn't match what was approved, and we fix it free. A change is anything new, and we quote it before starting.

Warranty

30 days of fixes after launch.

You own your accounts

Your domain, analytics and other accounts stay in your name. We get access, never ownership.

Ownership of your site

The design and content transfer to you on final payment. Licensed third-party items (like themes and fonts) stay under their own licences.

NEXT STEPS

Three steps to get started

1. Accept below.
2. We send the scope and first invoice (25%).
3. We book your kickoff call with the board.

YOU'RE ACCEPTING

Growth, Custom design

One-off (ex gst)	$3,500
Monthly (ex gst)	$0

Accept this proposal

Sign and return this page to marketing@purplegiraffe.com.au, or accept online at websitedevelopment.purplegiraffetower.com/proposals/AWIW/1

NAME _____ POSITION _____

SIGNATURE _____ DATE _____

By signing, you confirm you have read and accept this proposal and the pricing disclaimer.

When you win, we win.

This proposal does not include

- Any variations to the scope set out in this proposal. All variations or additional fees will be quoted as a fixed price or hourly rate that you agree to in writing before any work starts
- Graphic design such as infographics or iconography. This can be part of an outsourced marketing package or quoted as a standalone project
- Any once-off or ongoing fees for third-party applications or website running costs (for example premium themes, plugins, domain registration, payment gateway fees and business email)
- Any costs from delays caused by faults or defects in a third-party service
- Any costs to Purple Giraffe from interruptions caused by the client's action or inaction
- Custom web applications, portals, multilingual websites or complex platform migrations

Typical running costs paid directly by you

Indicative, so check current pricing: domain about $15 to $30 a year; premium plugins, budget $0 to $200 a month. Card fees depend on your payment gateway.

You'll need to provide

- Copy for your terms and conditions and privacy policy
- All branding, images and video for the website
- Access to your domain, hosting and existing website accounts (these stay in your name)
- One person to consolidate website feedback, returned within 2 business days per review round

Billing

- Website projects are billed in four parts: 25% when the proposal is signed, 25% after design approval, 35% after build and content, and 15% at go-live. Invoices are due within 7 days
- Care, hosting and ongoing support are billed monthly, with 30 days' notice to cancel
